**Walls** are identified by a letter. A diagram of "Niche Locations" with identification letters can be found at [HBCLynchburg.com/columbarium](http://HBCLynchburg.com/columbarium) or on site attached to the walls. Each columbarium unit has (2) two walls (sides). We currently have (4) four units therefore a total of (8) eight walls.

**Rows** are counted 1-4, top row to bottom row.

**Columns** are counted 1-6 from closest to Ebenezer to farthest from Ebenezer. Therefore, walls A, E, K, & O count columns 1-6 from LEFT to RIGHT as column 1 is nearest the Ebenezer. Walls B, F, L, & P count columns 1-6 from RIGHT to LEFT as column 1 is nearest the Ebenezer.
